DETAILED ACTION

Response to Amendment

1. The amendment filed on September 7, 2006 is not responsive to the previous Office Action because of the following omission(s) or matter(s):

The Applicant adds new claims directed to a recording medium type determining apparatus comprising, e.g., a determining section for determining presence of a wobble on a recording medium based on an open-reproduction signal, which is independent and distinct from the invention as originally claimed, which was directed to a recording medium type determining apparatus comprising, e.g., a processing section for processing a radial push-pull signal by means of autocorrelation. Since Applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, the amendment canceling all claims drawn to the elected invention and presenting only claims drawn to a nonelected invention is nonresponsive. See MPEP § 821.03.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
